THE WHIG PLATFORM

The Whigs of the United States, in Convention assembled, firmly adhering to the great conserva-tive republican principles by which they are con-trolled and governed, and now, as ever, relying upon the intelligence of the American people, with an abiding confidence in their capacity for self-government and their continued devotion to the constitution and the Union, do proclaim the following as the political sentiments and determinations for the establishment and maintenance of which their national organization as a party is

1. The government of the United States is of a limited character, and it is confined to the exeroise of powers expressly granted by the constitution, and such as may be necessary and proper for carrying the granted powers into full execution; and that all powers not thus granted or necessarily implied are expressly reserved to the States, respectively, and to the people.

2. The State governments should be held se-

cure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched over as "the palladium of our liberties."

3. That, while struggling freedom everywhere enlists the warmest sympathy of the Whig party, we still adhere to the doctrines of the Father of his Country, as announced in his Farewell Ad-dress, of keeping ourselves free from all entangling alliances with foreign countries, and of never quitting our own to stand upon foreign ground. That our mission as a republic is not to propagate our opinions, or impose on other countries our form of government by artifice or force, but to teach by example, and show, by our success, moderation, and justice, the blessings of self-government and the advantages of free in-

4. That where the people make and control the government, they should obey its constitution, laws, and treaties, as they would retain their self-respect and the respect which they claim and will enforce from foreign powers.

o. Government should be conducted upon prin-

ciples of the strictest economy, and revenue sufncient for the expenses thereof, in time of peace, ought to be mainly derived from a duty on imports, and not from direct taxes; and in levying such duties, sound policy requires a just discrimination, and protection from fraud by specific duties when practicable, whereby suitable encouragement may be assured to American industry. equally to all classes and to all portions of the

6. The constitution vests in Congress the power to open and repair harbors, and remove obstructions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every stance, national and general in their character.
7. The federal and State governments are parts

of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Respect for the authority of each, and acquiescence in the constitutional measures of each, are duties required by the plainest considerations of national, of State.

and of individual welfare.

S. The series of acts of the 31st Congress commonly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, in principle and substance, of the subjects to which they relate; and, so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of further legislation, to guard against the evasion of the laws on the one hand, and the abuse of their powers on the other-not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made; and we will main-tain this settlement as essential to the nationality of the Whig party and the integrity of the Union.

J. G. CHAPMAN, of Maryland, President of the Whig National Convention, R. A. UPTON, of Louisiana, Secretary of the Whig National Convention.

MACHINE FOR CRUSHING, GRINDING, AND

PULVERIZING. Recently Patented in this Country and Europe. \*\*
COCHRAN'S FLANOSPHERICAL QUARTS CRUSHING AND PULVERLING MACHINES are now in daily operation for the
inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their
durability, the undoubted principles upon which they oporate, their effective operation and result, are justly entitled
to the consideration of all parties engaged in grinding,
crashing, and Pulverizing Quarts. Tron Ore, Zine, Copper,
and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quartz or other
earthy matter, in proportion to the amount of weight or
power applied. The earthy matter is so completely ground
and pulverized, that the Gold may be easily separated, and
subjected to any process of amalgamation that may be necessary. Recently Patented in this Country and Europe.

subjected to any process or amagements.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being putverized. They are at once applicable for all purposes of grinding and putverizing, from those required by the Druggist to those of the most extensive operations in California and Australia. se machines are from two to twelve feet in diameter

with balls or spheres from two to tweive test in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100

to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a man or horse nuward.

any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or pulverizing, heredore affered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs. Burr, Waterman & Cogfirst streets south of Peck Slip Ferry, every day, from 7 to 9 a. m., and from 4 to 6 p. m. For further particulars, apply to

Mechanics, Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Railroads, Bridges, Arricultural implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Bollers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water. and Gas Engines, Bollers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Mills' Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Tolegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventions, American and Foreign. The work is in form for binding, contains several hundred Engfavings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in it: columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference. pedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York.

TERMS-ALWAYS IN ADVANCE. 

MAYOR'S PROCLAMATION.

WHEREAS by the act entitled "An act relating to Dogs," approved 20th July, 1829, and the act amending the same, approved 27th April, 1838, it is provided that "whenever it shall be made appear to the satisfaction of the Mayor that any animal of the dog kind" within the city shall be "deemed and considered mad," "it shall be the duty of the Mayor to issue his proclamation requiring that all animals of the dog kind shall be kept confined for such number of days as he shall deem expedient and proper to state in said proclamation, not exceeding ninety days; and it shall be the duty of the city constables, and lawful for any other person, to kill and bury all and every day going at large contrary to the said proclamation," &c:

Now, therefore, it having been made to suspect to my sate. MAYOR'S PROCLAMATION.

any other person, to kin and only all and every doy going at large contrary to the said preclamation," &c.: Now, therefore, it having been made to appear to my sat-isfaction that there are "animals of the dog kind" mad within this city. I do hereby give notice to all whom it may concern that "all animals of the dog kind" in this city are required to be kept confined for and during the term of thirty days from the date hereof; and the police officers of this Corporation are required to enforce the law in respect to all such as may be found going at large contrary to this proclamation.

Given under my hand at the Mayor's office, in the city of Washington, this seventeenth day of August. 1862. aug 18—02&law3w JOHN W. MAURY, Mayor. MR. J. K. GOODALL,

Professor and Teacher of Dancing, Deportment, Calisthenic, Sceptre, and the more athletic Indian club exercise for gentlemen, from London,

Hampton's Vegetable Tincture! COME, LET US REASON TOGETHER."

ORAL TESTIMONY. THOUSANDS feel it a duty to talk to their afflicted friends of the benefit derived from HAMPTON'S VEGETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known citizens, and still we have a perfect avalanche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skeptical. All are invited to call and read for themselves. The letter below is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

PORT ROYAL, Va., July 27, 1852. PORT ROYAL, Va., July 27, 1862.

Mezers. Mortimer & Mowbray: Gents: We have sgain to Vegetable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would not take five hundred dollars for the benefit he had derived, and that he should never cease to remember us with gratitude for calling his attention to so valuable a medicine. Yours, truly, GRAY & PENDLETON.

The Whole World, Attention !- Hear him, ye sick and do likewise!!

Baltimore, Feb. 9, 1862.

Masses. Mortimer & Mowbray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tinoture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tineture. I got one bottle, and before I had used it all my cough lett me. Permit me also to state that, for the last fiftern years. I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am finily convinced that I owe my present good health to the use of the Tineture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me, yours, very respectfully.

M. B.—I can be seen at any time at the Mayor's office.

N. B.—I can be seen at any time at the Mayor's office

THE ALMOST MIRACULOUS CURES made by Hamp ton's Vegetable Tincture on our most respectable zens-men well known and tried-we challenge the to show anything on record in medicine to equal it. hundreds who have fell its healing powers bear the same

Mesers. Mortimer & Monebray: Gents: Last September I was attacked with erysipelas, from which a dreadful ulcer formed on my right log. Getting better of this, last November I took a deep cold, which led to what my physician told me was billious pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend salvised me to try DR. HAMPTON'S VEGETABLE TING-TURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved: and now, having taken but two bottes, my cough and pains have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine. Yours,

Truth stranger than Fiction!-None need despair !-A Ludy's Testimony after thirty-eight years

Of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

NORTHANFON CO., April 13, 1852.

Messys. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this mouth; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMPTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing it unequalled.

Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N. REV. VERNON ESKRIDGE, U. S. N.

Pontsmouth (Va.,) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vagetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, diskiness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours, VERNON ESKRIDGE, Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild action on the Stomach, Liver, and the Kidneys, will cure Dyspepsia, Cough, Asthma, Bronchial and Lung Affections: Pains in the Back, Side, and Breast; Consumption, Scroftlia, Rhenmatisin, Gout, Neuralgia, Pistula, Piles, Bowel Complaints, Worms, Nervous Deblity—with all diseases arising from impure blood, and is the greatest Female Medicine seer known. ver known.

NEW SEVENTH STREET BOOK-STORE

GRAY & BALLANTYNE having secured commodious and convenient premises in Seventh street, two doors above Odd-Fellowe Hall, topposite the old stand of A Gray, offer a new and beautiful assortment of Religious Books, selected with great care by one of the firm, to which they invite the attention of the Christian public.

They would also respectfully state, that having become the general agents in this city for the sale of the publications of Robert Carrian & Browning, and of the Matricoler Book Concern, they will always have a complete supply of their respective publications on hand.

They will also keep a general assortment of the publications of the Preblyderian Board, American Tract Society, American Sunday School Union, &c.

Their assortment of Juvenur Books, and Works suitable for Sunday School Libraries, will be very extensive.

The Depository of the Washington City Bible Society is transferred to their store. Neat Bibles at 25 cents, and Testaments for 6½ cents.

It will be their ambition and pleasure to keep such an assortment of Religious Books as will entirely supply the increasing demand for this kind of literature.

They carniestly solicit the co-operation of Ohristian friends in the great and important work of widely circulating this class of publications, and thus counteracting, in some degree, the deleterious effects of the light and corrupt reading that is flooding the country to such a fearful extent.

In addition to their extensive assortment of Religious Books, which comprise all the best standard and miscellaneous works of that class, they will keep constantly on hand a great variety of valuable Historical, Miscellaneous, and Luvenile Works of unexceptionable character; Books of Sacred Music; Hymn Books, such as are used in all the different Churches; Bibles and Prayer Books, in every variety of binding, and at all prices; Albums, Annuals, and beautiful Gift Books; splendid Family Bibles; and School Books of every kind in use, at the lowest prices.

suspect any being present. These improvements being secured by double letters, yetter, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All sgents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON.

in the above experiments were a solution of chloride of so-dium, (common sait,) acetic acid, sulphuric acid, and hydro-chloric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have no assaible affect. o sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.

UNIVERSITY OF GA., October 8, 1850.

Intended. Yours, truly,
Lexinoton, Ki., February 20, 1850.

Chicago, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANEY.

AUGUSTA, (GA.) November II, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Leolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith,

Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanisal construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an unportant auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILIMAN, Jr., Prof. of Chem. in the University of Louisville.

Louisville, January 27, 1851.

Protection from Lightning.

THE undersigned, being the duly appointed Agent of SPRATT'S ELECTRICAN AND ELECTRO-METALLURGIST LOGRING-ROW MANUFACTORY, COVINGTON, KENTLURGIST LOGRING-ROW MANUFACTORY, COVINGTON, KENTLURGIST LOGRING-ROW MANUFACTORY, COVINGTON, CATONIZED ANNORING THE SEASON HAVE A COVINGTON, WITH ZIAN PROTECTS, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented) forming a lock; the whole mounted with a solid platinum silver point, (patented) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect slient conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest stigntion has been given to their construction, so as to be readily stached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely auspoct any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or

I do hereby certify that I have applied various powerful chemical reagents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The resegents used in the above experiments were a solution of chloride of so-dium. (compare a solution of chloride of so-dium. (compare a solution of chloride of so-
